

User Manual

Client Integration module reference

Table of Contents

Page: Client Integration

Page purpose: This page provides an interface to view and manage integrated client data across various modules such as Items, Partners, and Transactions.

Route: `/client-integration`

Task: View integrated item list

Purpose: To review the list of items integrated from the client system.

Required roles:

- No role restriction was identified

Prerequisites:

- User is logged into Prime VAT
- A company is selected from the top-left dropdown

Steps:

1. Navigate to the 'CLIENT INTEGRATION' menu item in the left sidebar.
2. Click on the 'ITEM' tab if not already selected.

Fields and controls:

- **SL:** Serial number of the item.
- **Item Code:** Unique identifier for the item.
- **Item Name:** Descriptive name of the item.
- **Item Type:** The classification type of the item.
- **Item Category:** The category the item belongs to.
- **Subcategory:** The specific subcategory of the item.
- **Unit of Measure:** The standard unit used to measure the item.
- **Average Rate:** The calculated average cost or rate for the item.
- **Current Selling Price:** The present market or system selling price.
- **Action:** Available actions for the specific row entry.

Expected result: The table populates with integrated item records if available.

Warnings:
