

User Manual

Transaction module reference

Table of Contents

Page: Adjustment

Page purpose: This page provides navigation for various adjustment types within the Transaction module.

Route: `/transaction/adjustment`

Task: Navigate to adjustment sub-menus

Purpose: Access specific adjustment modules like Debit Note, Credit Note, VDS, or Other Adjustment.

Required roles:

- No role restriction was identified

Prerequisites:

- User must be logged in

Steps:

1. Click on TRANSACTION in the side menu
2. Click on Adjustment to expand the list
3. Select the desired adjustment sub-menu

Fields and controls:

- No specific fields were identified from the available evidence.

Expected result: The application redirects to the selected adjustment page.

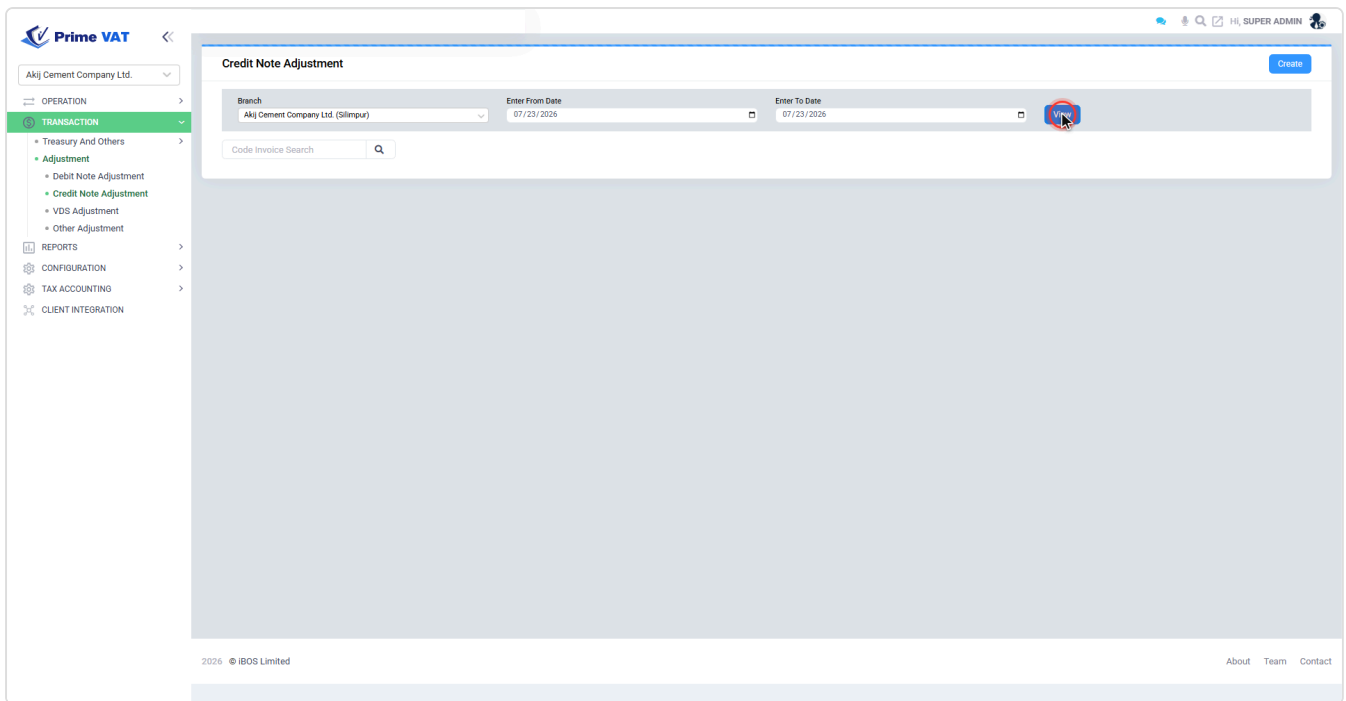

Warnings:

- No specific warning was identified

Search keywords: adjustment, debit note, credit note, VDS adjustment, other adjustment

Page: Credit Note Adjustment

The screenshot displays the 'Credit Note Adjustment' page within the Prime VAT application. The interface includes a sidebar on the left with a navigation menu. The main content area features a header with the title 'Credit Note Adjustment' and a 'Create' button. Below the header, there are input fields for 'Branch' (set to 'Akij Cement Company Ltd. (Sillipur)'), 'Enter From Date' (set to '07/23/2026'), and 'Enter To Date' (set to '07/23/2026'). A 'View' button is located next to the date fields. A search bar labeled 'Code Invoice Search' is also present. The footer of the page shows the year '2026' and the company name 'IBOS Limited', along with links for 'About', 'Team', and 'Contact'.

Page purpose: Allows users to search and view credit note adjustments.

Route: `/transaction/adjustment/creditNoteAdjustment`

Task: Filter and view credit note adjustments

Purpose: To locate and review specific credit note adjustments by date range and branch.

Required roles:

- No role restriction was identified

Prerequisites:

- Access to Transaction/Adjustment

Steps:

1. Navigate to Credit Note Adjustment
2. Select a branch from the dropdown
3. Enter the 'From Date' and 'To Date'
4. Click 'View'

Fields and controls:

- **Branch:** The business unit for the adjustment.
- **Enter From Date:** Start date for the search range.

- **Enter To Date:** End date for the search range.
- **Code Invoice Search:** Search for a specific invoice code.

Expected result: A table of credit note adjustments matching the search criteria appears.

Warnings:

- No specific warning was identified

Search keywords: credit note, search, filter, view

About Team Contact

Page purpose: Tool for viewing turnover tax-related transactions.

Route: `/transaction/treasuryAndOthers/turnoverTax`

Task: Filter turnover tax transactions

Purpose: Review turnover tax entries for a specific branch and time period.

Required roles:

- No role restriction was identified

Prerequisites:

- Access to Treasury and Others

Steps:

1. Select the branch
2. Set the date range
3. Click 'View'

Fields and controls:

- **Select Branch:** Filter by business branch.
- **Enter From Date:** Start of search period.
- **Enter To Date:** End of search period.

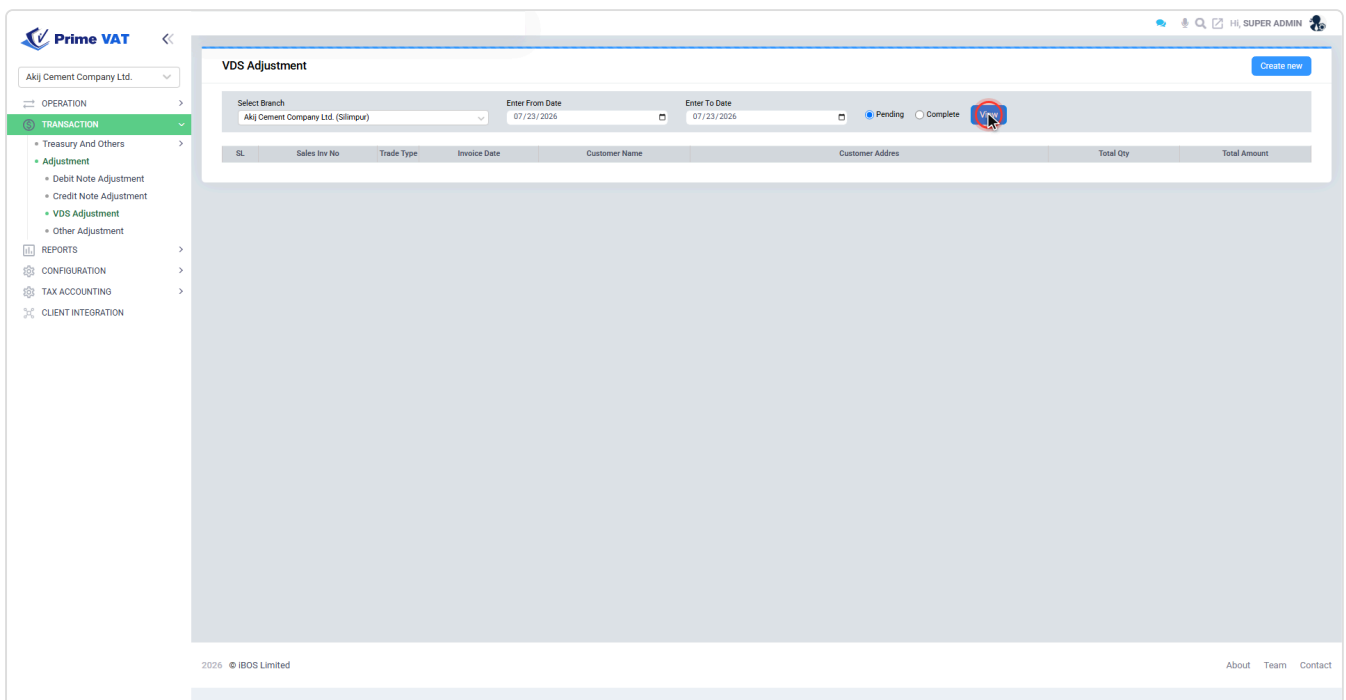

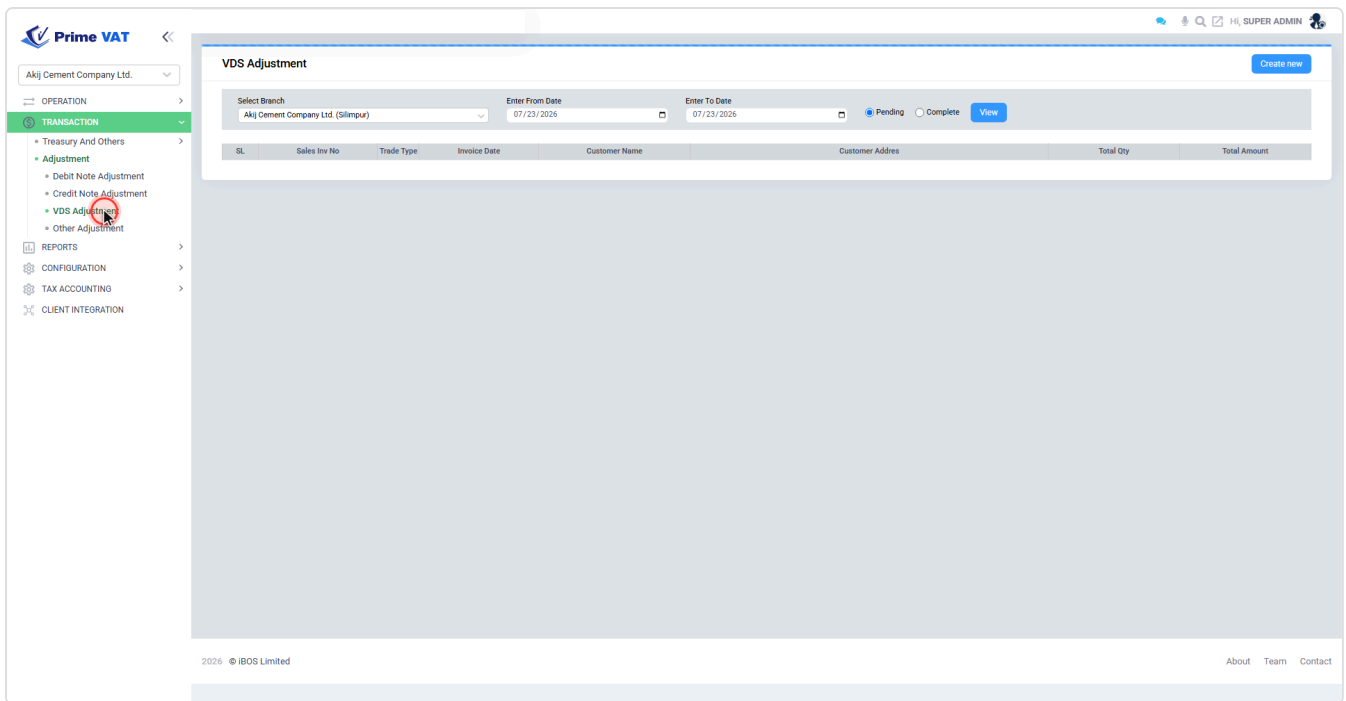

Expected result: Table displays relevant turnover tax data.

Warnings:

- No specific warning was identified

Search keywords: turnover tax, filter

Page: VDS Adjustment

Page purpose: This page allows users to view and manage adjustments related to VAT Deducted at Source (VDS).

Route: `/transaction/adjustment/vdsAdjustment`

Task: Filter VDS adjustments

Purpose: To find specific VDS adjustment records based on branch, date range, and status.

Required roles:

- No role restriction was identified

Prerequisites:

- Access to the Transaction module.

Steps:

1. Navigate to Transaction > Adjustment > VDS Adjustment.
2. Select the 'Select Branch' from the dropdown menu.
3. Enter the date range using 'Enter From Date' and 'Enter To Date'.
4. Select a status: 'Pending' or 'Complete'.
5. Click the 'View' button to display the filtered records.

Fields and controls:

- **Select Branch:** Dropdown to select the company branch.
- **Enter From Date:** Start date for the filter.
- **Enter To Date:** End date for the filter.
- **Pending:** Radio button to filter records with pending status.
- **Complete:** Radio button to filter records with completed status.

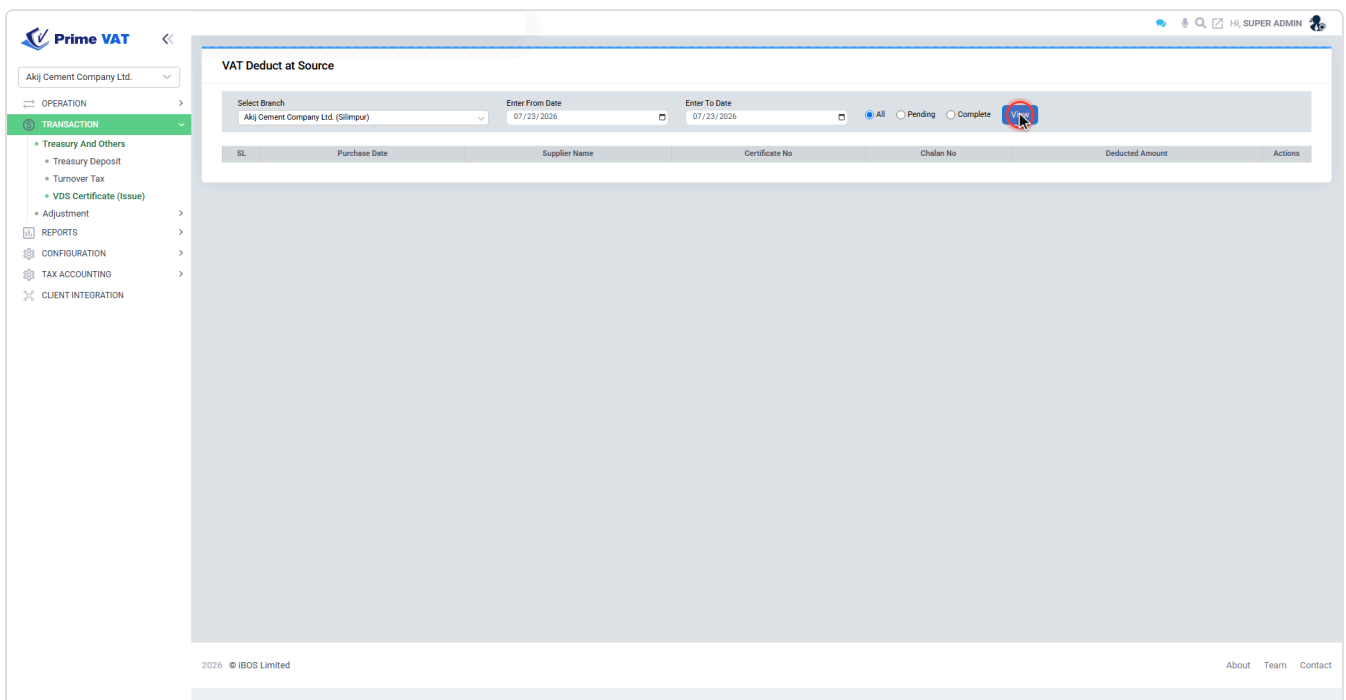

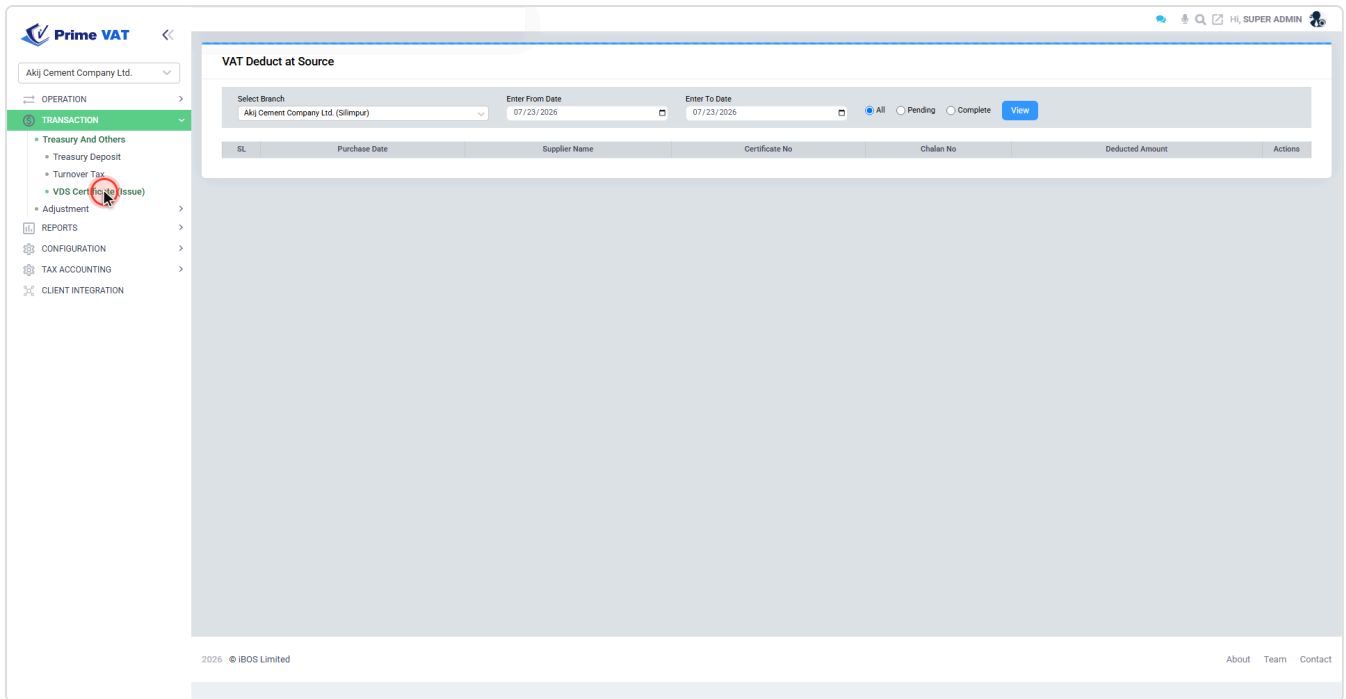

Expected result: A list of VDS adjustment records matching the specified criteria will appear in the table.

Warnings:

- No specific warning was identified

Search keywords: VDS, Adjustment, Filter, Search, VAT

Page: VDS Certificate (Issue)

Page purpose: This page is used to view issued VAT Deduct at Source (VDS) certificates.

Route: `/transaction/treasuryAndOthers/varDeductatSource`

Task: View VDS certificates

Purpose: To view and track issued VDS certificates for a specific period.

Required roles:

- No role restriction was identified

Prerequisites:

- Access to the Transaction module.

Steps:

1. Navigate to Transaction > Treasury And Others > VDS Certificate (Issue).
2. Select the branch from 'Select Branch'.
3. Specify the date range using 'Enter From Date' and 'Enter To Date'.
4. Choose a status: 'All', 'Pending', or 'Complete'.
5. Click the 'View' button.

Fields and controls:

- **Select Branch:** Dropdown for branch selection.
- **Enter From Date:** Start date for the period.
- **Enter To Date:** End date for the period.
- **All:** Filter by all certificate statuses.
- **Pending:** Filter by pending certificate status.
- **Complete:** Filter by completed certificate status.

Expected result: A table showing details like Purchase Date, Supplier Name, Certificate No, Chalan No, and Deducted Amount will be generated.

Warnings:

- No specific warning was identified
